UL ECOLOGO® is committed to maintaining the high value of the ECOLOGO® mark and protecting the reputation of your products, brand, and company. We ask that you please notify your UL ECOLOGO® project handler as soon as possible of any changes made to formulations, bill of materials, manufacturing locations, or of any changes that may affect the compliance of your products. Notification can be made to: [LST.OTT.EcologoEPM@ul.com](mailto:LST.OTT.EcologoEPM@ul.com)

### Compliance Audit Schedule

The UL ECOLOGO® program conducts facility re-audits every three years for non-ISO 9001 certified facilities, and every four years for ISO 9001 certified facilities, provided there have been no major changes that would affect the audit results within the three year period. Major changes include, but are not limited to, manufacturing process changes or relocation of manufacturing facility, etc. UL ECOLOGO® reserves the right to request more frequent re-auditing at an additional cost if it is deemed necessary; however, these decisions will be made on a case-by-case basis and only after careful consideration. If there are multiple manufacturing facilities, at request, UL ECOLOGO® can adjust the schedule to prevent all audits from occurring in the same year.
